# Reliably hot water for generations

Storage water heaters

## Storage water heaters for the whole family

VITOWELL comfort provides a comprehensive range of water heaters for the whole family. These products are unbeatable in terms of durability and safety. Equipped with the exclusive Viessmann Ceratech Technology, the units guarantee maximum water pressure and a corrosion resistant water tank, while smart, energy-efficient programs allow precise temperature control. It's no wonder that VITOWELL comfort is the first choice for every discerning household.

## Ceratech Technology

Viessmann adopts the exclusive Ceratech Technology enamel coating formula to extend the durability of its water tanks. The anti-corrosion function performed by the internal water tank ceramic layer has been developed with decades of expertise, continuous improvement of materials and applied technology. The ceramic layer has a particularly high density and a perfectly smooth surface, undergoing a 100% quality check off the production line.

## Designs for every need

VITOWELL comfort heaters are available in two designs: cube and slim. Slim heaters stick out by their simplistic, modern design. Thanks to the slim shape, they can also be concealed in a false ceiling. The traditional, compact design makes cube heaters particularly suitable for small bathrooms.

## Operation and installation

The VITOWELL comfort Classic, Premium and Deluxe water heaters operate at a frequency of 50Hz, withstand a maximum working pressure of 8 bar and provide a maximum operating temperature of 75 °C (80 °C for cylinder heaters). Installation is done by a professional for maximum service and safety – Viessmann is organizing the needful for your convenience.

## High quality standards for durability and safety

Viessmann's German heritage obliges us to offer products at high quality standards. All our storage water heaters are made of durable ABS material or steel. They meet EU standards for health, safety, and environmental protection and are developed as per strictest quality standards. This translates into high level precision, safety and durability in daily operation.

Designed  
in Germany

**Robust and safe.**

The VITOWELL comfort Classic line equips you with a reliable and secure water heater. Viessmann adopts the exclusive Ceratech Technology enamel coating formula to extend the durability of water tanks. Therefore, acid corrosion resistance, alkaline resistance, temperature and pressure resistance meet the latest German quality standards to assure long-lasting durability of the heater at its core. An electronic ELCB and high-quality, water-resistant casing material provide maximum safety.

**Heater highlights**

- + Stepless temperature adjustment
- + Double-safety thermostats for protection against overheating
- + Large magnesium anode for optimum protection against tank corrosion

**Cube**

▪ 10 litres	200 Watts / 220 Volts	6.8 kg
▪ 15 litres	350 Watts / 220 Volts	7.6 kg
▪ 30 litres	500 Watts / 220 Volts	12 kg

**Slim**

▪ 20 litres	350 Watts / 220 Volts	9 kg
-------------	-----------------------	------

**Increased efficiency and ease of use.**

For VITOWELL comfort Premium, Viessmann extended the Cera-tech Technology anti-corrosion ceramic layer application to heating elements, thus further improving durability of the device and reliability of the heating process. On top of this, Premium heaters come with a convenient temperature LED ring: The orange light indicates when the heating process is in progress and changes to blue when the hot water is ready.

**Heater highlights**

- + Stepless temperature adjustment with LED ring indicator
- + Ceramic heating element for advanced corrosion protection
- + Double-safety thermostats for protection against overheating

**Cube**

▪ 15 litres	350 Watts / 220 Volts	7.6 kg
▪ 30 litres	500 Watts / 220 Volts	12 kg

**Slim**

▪ 20 litres	350 Watts / 220 Volts	9 kg
-------------	-----------------------	------

**Maximum efficiency and intelligent control.**

Individually controllable, highly precise and efficient: those who make no compromises for their family choose a VITOWELL comfort Deluxe water heater. With digital display functionalities, it provides maximum control over the heating status and allows substantial energy savings thanks to the water availability programming function. An electronic timer is not only convenient to assure that the heater will automatically switch on/off; it also helps to use the device in the most efficient way.

**Heater highlights**

- + Easy digital stepless temperature adjustment with soft-touch display
- + Tank corrosion and overheating protection
- + Double-power option: fast or regular heating time, the latter saving energy
- + Electronic timer for heater programming

**Cube**

▪ 15 litres	500 Watts / 220 Volts	7.6 kg
▪ 30 litres	800 Watts / 220 Volts	12 kg

**Hot water in your complete house**

With capacities ranging from 50 to 100 litres, VITOWELL comfort cylinder water heaters are the right choice to supply your whole house with hot water. You can choose between horizontal or vertical installation.

**Heater highlights**

- + Large magnesium anode for optimum protection against tank corrosion
- + Double-safety thermostats for protection against overheating
- + Temperature LED for ease-of-use
- + Vertical or horizontal installation

**Vertical**

- **50 litres**  
800 Watts / 220 Volts  
18 kg

---

- **80 litres**  
1.2 Watts / 220 Volts  
24 kg

---

- **100 litres**  
1.5 Watts / 220 Volts  
28 kg

---

**Horizontal**

## Classic, Premium or Deluxe?

VITOWELL comfort heaters are available as Classic, Premium and Deluxe models which include capacities from 10 to 30 litres. Cylinder heaters are available in 50, 80 and 100 litres.

Feature	Classic	Premium	Deluxe	Cylinders
ELCB Type	Electronic			
Waterproof Casing	IPX4
